APPLICATION INSTRUCTIONS

1. Grasp top of support (largest end) and loosen straps.
2. After determining side of kneecap (patella) that requires support, position buttress on affected side and slide sleeve over knee. (Note: buttress may be removed and placed on opposite side.)
3. Make sure seam is placed posteriorly in back of leg and hinges or spiral stays are placed medial/lateral on leg.
4. Your kneecap (patella) should be centered in the circular opening with buttress placed on rim of the kneecap (patella).
5. Grasp both small straps above and below kneecap by hook tip and pull back onto loop portion of strap.
6. Adjust small straps to desired tension or comfort level.
7. Starting with large strap nearest foot, secure strap thru buckle and tighten to desired comfort level. Secure remaining strap in same manner.

CARE & CLEANING

Corflex manufactures a quality line of products and to help you care for the product properly we provided the following instructions for care & cleaning:

Remove any metal stays if possible, close all contact closures and hand wash in warm water with mild soap. Product should be air-dried, do not use high temperatures to wash or dry.
